About Maplewood International REIT

The REIT is an unincorporated, open-ended real estate investment trust established under the laws of the Province of Ontario. The REIT is a Canadian based growth-oriented international REIT, established to invest in high-quality income producing commercial real estate outside of Canada. The REIT's initial geographic focus is on the investment grade countries of Europe, with an initial target market of the Netherlands. The REIT's mission is to provide Canadian investors with high-quality international real estate diversification and deliver stable, sustainable, and growing cash flows to unitholders, on a tax-efficient basis.

About the Netherlands

The Netherlands, one of the core founding members of the European Union and the Eurozone, enjoys an elite investment grade credit rating (Fitch: AAA, Moody's: Aaa, S&P: AA+). The Netherlands has a strong economic position within Europe and globally, ranked as the 3rd highest gross domestic product ("GDP") per capita in the Eurozone and the 5th largest economy by GDP in the Eurozone, both according to the International Monetary Fund (World Economic Outlook Database, April 2013).

Non-IFRS Measures

The REIT prepares and releases unaudited quarterly and audited annual consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"). Certain terms used in this press release such as funds from operations ("FFO"), adjusted funds from operations ("AFFO") and net operating income ("NOI"), including their derivations such as recurring FFO, recurring AFFO and property AFFO, are not measures recognized under IFRS and do not have standardized meanings prescribed by IFRS. These non-IFRS measures are further defined and reconciled in the MD&A for the third quarter of 2014, which should be read in conjunction with this press release. FFO, AFFO and NOI are supplemental measures of a Canadian real estate investment trust's performance and the REIT believes that FFO, AFFO and NOI are relevant measures of its ability to earn and distribute cash returns. The IFRS measurements most directly comparable to FFO, AFFO and NOI are cash flow from operating activities and net income. The REIT believes that AFFO is an important measure of our economic performance and is indicative of our ability to pay distributions; however, it does not represent cash flow from operating activities as defined under IFRS. FFO, AFFO and NOI should not be construed as alternatives to net income or cash flow from operating activities determined in accordance with IFRS as indicators of the REIT's performance. The REIT's

method of calculating FFO, AFFO and NOI may differ from other issuers' methods and accordingly may not be comparable to measures used by other issuers.

All forward-looking information in this press release speaks as of the date of this press release. The REIT does not undertake to update any such forward-looking information whether as a result of new information, future events or otherwise.
