1. Nature of operations

Maplewood International Real Estate Investment Trust (the "REIT") is an unincorporated, open ended real estate investment trust established under the laws of the Province of Ontario pursuant to the Declaration of Trust dated May 30, 2013 and as amended and restated on September 9, 2013 (the "DOT"). The registered office of the REIT is located at 2425 Matheson Boulevard East, Suite 791, Mississauga, Ontario, Canada.

Prior to its reorganization as a real estate investment trust, the REIT was known as Holland Global Capital Corporation (the "Corporation"), a capital pool company, as defined in Policy 2.4 of the TSX Venture Exchange (the "TSXV"). The Corporation was incorporated under the Business Corporations Act (Ontario) on January 15, 2013 and completed its initial public offering on April 5, 2013. The shares of the Corporation were listed on the TSXV on April 11, 2013. Prior to completing the Plan of Arrangement on September 9, 2013, there were 40,500,000 shares of the Corporation issued and outstanding.

Pursuant to the Plan of Arrangement approved on September 9, 2013 by the Corporation's shareholders and the TSXV, the common shares of the Corporation were exchanged, based on an exchange ratio of eight-for-one, for either REIT Units or Class B LP Units of Maplewood International Limited Partnership ("MILP"), a wholly-owned subsidiary of the REIT. In addition, outstanding options or warrants to purchase shares in the Corporation were exchanged for REIT Unit options or warrants having identical terms, subject to the adjustment of the number of Units based on the exchange ratio of one REIT Unit for every eight shares held. The REIT is now the continuing public entity with its Units listed on the TSXV, under the symbol MWI.UN.

2. Basis of presentation

(a) Statement of compliance

The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), including International Standard 34, Interim Financial reporting, as issued by the International Accounting Standards Board ("IASB") and do not include all of the information required for full annual financial statements and using accounting policies described herein. These unaudited condensed consolidated interim financial statements have not been reviewed by an independent accounting firm.

These unaudited condensed consolidated interim financial statements were authorized for issue by the Board of Trustees of the REIT on November 1, 2016.

Maplewood International Real Estate Investment Trust
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
Nine months ended September 30, 2016 and the year ended December 31, 2015
(In Canadian Dollars)

(b) Basis of presentation

As disclosed further in note 16, on March 22, 2016, the REIT's unitholders approved the special Sale and Termination Resolution, including (i) the sale of the REIT's sole investment property in the Netherlands (the "Property"), which comprises substantially all of the assets of the REIT; and (ii) the termination of the REIT pursuant to the terms of the REIT's declaration of trust.

The REIT intends to use the proceeds from the sale of the Property to repay its remaining outstanding liabilities, which includes the mortgages payable balance (see note 6). The REIT intends to distribute to the Unitholders its net cash after realization of its assets and settlement of its liabilities and subsequently wind-up the REIT. As a result, the REIT has determined it is no longer appropriate to present the financial statements on a going concern basis. The REIT's financial statements have been prepared on a liquidation basis. Due to the planned sale of the Property, all assets and liabilities are current in nature and are expected to be settled in less than twelve months.

The unaudited condensed consolidated interim financial statements comprise the financial statements of the REIT and its subsidiaries. Subsidiaries are entities controlled by the REIT. The financial statements of the subsidiaries are prepared for the same reporting periods as the REIT using consistent accounting policies. All intercompany transactions and balances between the REIT and its subsidiary entities have been eliminated upon consolidation.

The entities included in the REIT's unaudited condensed consolidated interim financial statements are as follows:

Entity	Type	Relationship
Maplewood International Real Estate Investment Trust ("REIT")	Trust	Parent
Maplewood International General Partner Corporation ("MIGP")	Corporation	100% owned by REIT
Maplewood International Limited Partnership ("MILP")	Partnership	Class A Units are owned by REIT, Class B LP Units are owned by Class B LP Holders, 0.01% owned by MIGP
Maplewood International Operating General Partnership Corporation ("MIOGP")	Corporation	100% owned by MILP
Maplewood International Operating Limited Partnership ("MIOLP")	Partnership	99.99% owned by MILP and 0.01% owned by MIOGP
Maplewood International Holdings B.V.	Dutch B.V.	100% owned by MIOLP

(c) Basis of measurement

The consolidated financial statements have been prepared on a liquidation basis. The REIT has considered whether any adjustment to the carrying values of the assets and liabilities were required as a result of the anticipated sale and wind-up of the Partnership (see note 2(b)). Delays or changes in the proposed transaction could cause the carrying value of the REIT's assets and liabilities to differ materially from the carrying amount.

These unaudited condensed consolidated interim financial statements are presented in Canadian dollars which is also the functional currency of the REIT.

3. Significant accounting policies

The accounting policies applied by the REIT in these unaudited condensed consolidated interim financial statements are the same as those applied by the REIT as at December 31, 2015.

4. Asset held for sale

The asset held for sale represented the Property that has been presented as held for sale following the approval of the Unitholders to sell the Property (see note 16). In accordance with IFRS 5, the assets were assessed for impairment at the time they were classified as held for sale. The carrying amount was compared with the fair value, less costs to sell and no impairment was recorded.

The reconciliation of the carrying amount of assets held for sale for the nine months ended September 31, 2016 and the year ended December 31, 2015 is set out below:

Balance, January 1, 2015	\$	-
Classification to asset held for sale		10,588,000
Balance, December 31, 2015		10,588,000

Amounts receivable	\$ 19,615	\$ 33,956
Prepaid expenses	15,065	8,100
	\$ 34,680	\$ 42,056

6. Long-term debt

As at September 30, 2016, the REIT had \$5,568,658 (€3,780,000) of principal amount of mortgages payable (December 31, 2015, \$5,641,998, or €3,730,000). The mortgages carry a weighted average interest rate of 3.62% (December 31, 2015, 3.72%) and a weighted average term to maturity of 2.0 years (December 31, 2015, 2.75 years). One mortgage has a fixed rate and one mortgage has a variable rate. The mortgages are secured by a first charge on the investment property and are repayable as follows:

	Scheduled principal payments	Debt maturing during the year	Total mortgages payable
2016 - remainder of the year	\$ 44,196	\$ -	\$ 44,196
2017	176,783	-	176,783

Face value			5,568,658
Unamortized financing costs			-
			\$ 5,568,658

The following table provides a breakdown of mortgages payable at September 30, 2016 and December 31, 2015:

	September 30, 2016	December 31, 2015
Current:		
Mortgages payable	\$ 5,568,658	\$ 5,641,998
Unamortized financing costs	-	-
	\$ 5,568,658	\$ 5,641,998

On July 12, 2016, the REIT announced that, further to its press release dated December 31, 2015 describing the execution of the lease amendment on the Property and the required capital investment in the Property by the REIT in the maximum amount of €140,000 (the "Capital Investment"), the REIT has secured committed debt financing from the existing mortgage lender on the Property to fully finance the Capital Investment, which has been structured and funded by the Lender as an addition to the REIT's existing mortgage debt on the Property in the amount of €140,000. The Capital Investment is comprised of specified building improvements that Management believes will enhance the quality and functionality of the Property.

7. Class B LP Units

Pursuant to the Plan of Arrangement completed on September 9, 2013, 35,000,000 common shares of the Corporation were exchanged for 4,375,000 Class B LP Units in MILP on the basis of one Class B LP Unit for every eight common shares of the Company, resulting in 4,375,000 Class B LP Units being issued.

The Class B Units are economically equivalent to REIT Units and are entitled to receive distributions equal to those provided to holders of REIT Units. These Class B Units have been classified as a liability in accordance with IFRS.

The following table shows the change in the carrying value of the Class B Units outstanding for the nine months ended September 30, 2016 and the year ended December 31, 2015:

	Class B LP Units	Amount
Outstanding, January 1, 2015	4,250,000	\$ 2,975,000
Class B LP Units exchanged for REIT Units	(4,250,000)	(1,625,625)
Fair value adjustment	-	(1,349,375)
Outstanding, September 30, 2016 and December 31, 2015	-	\$ -

Upon completion of the Plan of Arrangement on September 9, 2013, the Class B LP Units were recorded at a cost of \$0.80. During 2016, all 4,250,000 Class B LP Units that had been outstanding as at December 31, 2014 were exchanged for REIT Units and there were no Class B LP Units outstanding as at September 30, 2016 and December 31, 2015.

8. Unitholders' capital

(a) Units

The REIT is authorized to issue an unlimited number of Units and an unlimited number of special voting units (the "Special Voting Units"). Each Unit confers the right to one vote at any meeting of unitholders and to participate pro rata in all distributions by the REIT and, in the event of termination or winding up of the REIT, in the net assets of the REIT. The unitholders have the right to require the REIT to redeem their Units on demand. The Units have no par value.

Maplewood International Real Estate Investment Trust
Notes to the Condensed Consolidated Interim Financial Statements (Unaudited)
Nine months ended September 30, 2016 and the year ended December 31, 2015
(In Canadian Dollars)

Upon receipt of the redemption notice by the REIT, all rights to and under the Units tendered for redemption shall cease and the holder thereof shall be entitled to receive a price per Unit (the "Redemption Price"), as determined by a formula and outlined in the DOT. The Redemption Price will be paid in accordance with the conditions provided for in the DOT.

The Trustees have discretion in respect to the timing and amounts of distributions.

(b) Special voting units

The DOT and the exchange agreement provide for the issuance of the Special Voting Units which have no economic entitlement in the REIT or in the distribution or assets of the REIT, but are used to provide voting rights proportionate to the votes of the Units to holders of securities exchangeable into Units, including the Class B LP Units. Each Special Voting Unit is not transferable separately from the Class B LP Unit to which it is attached and will be automatically redeemed and cancelled upon exchange of the attached Class B LP Unit into a Unit. As the Special Voting Units have no economic entitlement in the REIT, no value has been assigned to the Special Voting Units in these condensed consolidated interim financial statements.

(c) Units outstanding

The following table summarizes the changes to Units for the nine months ended September 30, 2016 and the year ended December 31, 2015:

	Units	Amount
Balance, January 1, 2015	1,730,057	\$ 2,813,476
<u>Class B LP Units exchanged for REIT Units</u>	<u>4,250,000</u>	<u>1,625,625</u>
Balance, December 31, 2015	5,980,057	4,439,101
DRIP fractional units paid out in cash to Unitholders	(20)	-
Balance, September 30, 2016	5,980,037	\$ 4,439,101

On February 7, 2013, the Corporation issued 10,000,000 common shares for cash of \$500,000 in a seed financing. The shares are held in escrow and will be released in future periods in accordance with the Escrow Agreement entered into between the Corporation and the seed shareholders.

On February 8, 2013, the Corporation issued 26,500,000 common shares for cash of \$2,650,000 in a private placement. Of these 26,500,000 common shares, 19,500,000 common shares are held in escrow and will be released in future periods in accordance with the Escrow Agreement entered into between the Corporation and the shareholders of the private placement.

On April 5, 2013, the Corporation issued 4,000,000 common shares for cash of \$400,000 in an initial public offering (the "Initial Public Offering"). Costs related to the issuance, including the agent's commission, legal, audit and filing fees, of \$173,424 were charged directly to shareholders' equity.

In connection with the Initial Public Offering, the Corporation granted on the closing date to the agent, warrants to purchase up to 400,000 common shares, at a price of \$0.10 per share. The agent's warrants expire 24 months from the date the common shares of the Corporation are listed on the Exchange. The fair value of warrants issued have been included in unit issuance costs.

On April 11, 2013, the Corporation's common shares began trading on the Exchange.

The Plan of Arrangement was completed September 9, 2013, whereby 5,500,000 common shares of the Corporation were exchanged for REIT Units on the basis of one REIT Unit for every eight common shares of the Company (687,500 REIT Units at a value of \$376,576). The remaining 35,000,000 common shares were exchanged for Class B LP Units in MILP on the basis of one Class B LP Unit for every eight common shares of the Company (4,375,000 Class B LP Units at a value of \$3,000,000). On completion of the Plan of Arrangement, the REIT issued 625,000 Private Placement Units which include one Unit and one warrant by way of a private placement at \$3.20 per Unit for gross proceeds of \$2,000,000. Each warrant entitles the holder to purchase a Unit at an exercise price of \$3.20 within 24 months of the date of issuance.

On March 8, 2016, the REIT terminated its distribution reinvestment plan (the "DRIP"), as contemplated in the REIT's management information circular dated February 19, 2016 and approved at the REIT's special meeting of Unitholders on March 22, 2016 (see note 16). As a result, DRIP fraction units were cancelled and paid out in cash to Unitholders.

9. Unit options

The REIT has adopted a Unit based compensation plan (the "Plan"). Under the terms of the Plan, the Board of Trustees of the REIT may from time to time, in its discretion, and in accordance with Exchange requirements, grant trustees, officers, employees and consultants to the REIT, non-transferable options to purchase REIT Units, exercisable for a period of up to five years from the date of grant. These Units vest according to the vesting schedule over a three year period from the grant date. The total numbers of REIT Units reserved under option for issuance may not exceed 10% of the REIT Units outstanding.

Pursuant to the Plan of Arrangement approved by the Corporation's shareholders and the Exchange, 4,050,000 of outstanding options, issued at an exercise price of \$0.10 per share to purchase shares in the Corporation, were exchanged for 506,250 Unit options at an exercise price of \$0.80 per Unit option. The Unit options have terms identical to the share options. As part of this exchange, the fair value adjustment on conversion has been recognized through deficit.

As contemplated in the REIT's management information circular dated February 19, 2016 and approved at the REIT's special meeting of Unitholders on March 22, 2016, the Unit option plan will be terminated by the Trustees, upon the completion of the REIT's termination (see note 16). As a result, option liabilities as at December 31, 2015 were written-off.

10. Amounts payable and accrued liabilities

	September 30, 2016	December 31, 2015
Legal fees payable	\$ 64,972	\$ 214,972
Other amounts payable	6,980	7,268
Accrued liabilities	49,672	92,639
VAT Payable	48,312	58,386
	<u>\$ 169,936</u>	<u>\$ 373,265</u>

11. Warrants

On April 5, 2013, in connection with the Initial Public Offering, the Corporation granted on the closing date to the agent, an option to purchase up to 400,000 common shares, at a price of \$0.10 per share. The agent's warrants expire 24 months from the date the common shares of the Corporation are listed on the Exchange.

Pursuant to the Plan of Arrangement approved by the Corporation's shareholders and the Exchange, 400,000 of outstanding warrants, issued at an exercise price of \$0.10 per share to purchase shares in the Corporation, have been exchanged for 50,000 REIT Unit warrants at an exercise of \$0.80 per Unit warrant. The Unit warrants have terms identical to the share warrants. As part of this exchange, the fair value adjustment on conversion has been recognized through deficit.

	Number of Unit warrants	Weighted average exercise price
Balance, January 1, 2016	50,000	\$ 0.80
Warrants expired	(50,000)	-
Balance, September 30, 2016 and December 31, 2015	-	\$ -

The agent's warrants expired as of April 5, 2015.

On September 10, 2013, the REIT issued 625,000 Private Placement Units, which include one Unit and one warrants by way of a private placement at \$3.20 per Unit for gross proceeds of \$2,000,000. Each warrant entitles the holder to purchase a Unit at an exercise price of \$3.20 within 24 months of the date of issuance.

	Number of Units warrants	Weighted average exercise price
Balance, January 1, 2015	625,000	\$ 3.20
Warrants expired	(625,000)	-
Balance, September 30, 2016 and December 31, 2015	-	\$ -

The private placement warrants expired on September 10, 2015.

12. Capital management

The REIT defines its capital as the aggregate of unitholders' equity, Class B LP Units, mortgages payable. The REIT's objectives when managing capital are to safeguard and build long-term unitholder value fund its ongoing long-term business strategies and provide reasonable returns to unitholders taking into account levels of risk.

The REIT's Declaration of Trust provides that total indebtedness of the REIT may not exceed 65% of the Gross Book Value as defined; as at September 30, 2016, this ratio was 52.8% according to the calculation as defined in the Declaration of Trust.

13. Risk management and fair values

(a) Risk management

In the normal course of business, the REIT is exposed to a number of risks that can affect its operating performance. These risks and the actions taken to manage them are as follows:

(i) Interest rate risk:

Interest rate risk is the risk that changes in market interest rates may have an effect on the cash flows associated with some financial instruments, known as interest rate cash flow risk, or on the fair value of other financial instruments, known as interest rate price risk. Obtaining long-term mortgages with fixed interest rates minimizes cash flow risk. One of the REIT's outstanding mortgages is subject to floating interest rate. For the nine month ended September 30, 2016, a 100-basis-point change in interest rates would have resulted in a \$20,800 change in the REIT's interest expense.

(ii) Credit risk:

Credit risk is the risk that one party to a financial instrument will cause a loss to another party by failing to pay for its obligations. The REIT is subject to credit risk with respect to its cash and cash equivalents. The REIT mitigates credit risk by depositing cash with and investing with chartered banks.

As at September 30, 2016, the REIT had a single tenant, resulting in concentration of credit risk. The REIT mitigates the credit risk with respect to the tenant by evaluating their creditworthiness on a periodic basis.

The REIT's amounts receivable of \$19,615 are primarily input tax credits on HST paid, for which management consider the collection risk to be minimal.

(iii) Liquidity risk

Liquidity risk is the risk that the REIT will not have the financial resources required to meet its financial obligations as they become due. The REIT manages this risk by ensuring it has sufficient cash and cash equivalents on hand to meet obligations as they become due by forecasting cash flows from operations, cash required for investing activities and cash from financing activities. There is a risk that lenders will not refinance maturing debt on terms and conditions acceptable to the REIT. Management's strategy mitigates the REIT's exposure to excessive amounts of debt maturing in any one year.

The estimated maturities of the REIT's financial liabilities, excluding options and warrants, are outlined below:

	Amounts payable and		
	accrued liabilities	Long-term debt	Total
2016	\$ 169,936	\$ 44,196	\$ 214,132
2017	-	176,783	176,783
2018 and thereafter	-	5,347,679	5,347,679
	\$ 169,936	\$ 5,568,658	\$ 5,738,594

(iv) Currency risk:

Currency risk is the risk that changes in foreign exchange rates may have an effect on future cash flows associated with financial instruments. The REIT's functional and presentation currency is Canadian dollars. The REIT's operating subsidiaries' functional currency is the Euro; accordingly the assets and liabilities are translated at the prevailing rate at period-end, and comprehensive income is translated at the average rate for the period. The REIT may periodically enter into derivative contracts to manage part of the foreign exchange risk exposures.

For the nine month period ended September 30 2016, a \$0.10 strengthening in the Euro against the Canadian dollar would have decreased net loss by approximately \$48,000 and unrealized foreign currency translation adjustment included in other comprehensive loss by approximately \$650,000. Conversely, a \$0.10 weakening in the Euro against the Canadian dollar would have had an equal but opposite effect.

(b) Fair values

The fair values of the REIT's financial assets, which include cash and other receivables, as well as financial liabilities, which include tenant rental deposits, finance costs payable and accounts payable and accrued liabilities, approximate their recorded values due to their short-term nature.

The REIT uses a fair value hierarchy to categorize the type of valuation techniques from which fair values are derived. The REIT's use of quoted market prices (Level 1), internal models using observable market information as inputs (Level 2) and internal models without observable market information as inputs (Level 3).

14. Management Compensation

Key management personnel have received \$51,458 as employment compensation for the three month period ended September 30, 2016 (\$52,280 for the three months ended September 30, 2015), and \$160,093 for the nine month period ended September 30, 2016 (\$159,769 for the nine months ended September 30, 2015).

15. Operating lease

The REIT receives rental income from an operating lease. The minimum future base rent payments to the REIT under this non-cancelable operating lease is \$230,770 for the remainder of 2016 and \$923,081 annually for 2017 to 2026. The rent is inflation indexed annually on January 1, for the first time with effect on January 1, 2017.

16. Business update

On September 8, 2015, the REIT announced that it had initiated a value maximization process, approved by the Board of Trustees, involving a series of proposed transactions whereby, subject to receiving all necessary regulatory and unitholder approvals, the REIT intends to dispose of its sole investment property in the Netherlands (the "Property") and return the REIT's capital to unitholders, with a view to ultimately winding-up and terminating the REIT's business and affairs.

On February 12, 2016, the REIT announced that it had executed an all-cash conditional purchase offer on the Property in the amount of €6,910,000 from a European private equity firm at arm's length to the REIT.

On March 22, 2015, the REIT held a Special Meeting of the Unitholders, in which they approved the special Sale and Termination Resolution, including: (i) the sale of the Property, which comprises substantially all of the assets of the REIT; and (ii) the termination of the REIT pursuant to the terms of the REIT's Declaration of Trust. Full details of the matters voted upon are set out in the management information circular of the REIT dated February 19, 2016, which is available under the REIT's profile on SEDAR at www.sedar.com.

On April 5, 2016, the REIT announced that it had executed a new all-cash conditional purchase offer on the Property in the amount of €7,150,000 from a European private real estate investment fund at arm's length to the REIT. This new purchase offer replaces the previous purchase offer executed by the REIT, as announced on February 12, 2016, which did not culminate in the execution of a binding purchase and sale agreement and as a result, the REIT was unable to complete the sale of the Property to the previous purchaser.

On June 14, 2016, the REIT announced that it had withdrawn from further negotiations on the conditional purchase offer announced on April 5, 2016, which did not culminate in the execution of a binding purchase and sale agreement, as the terms and conditions proposed by the purchaser were unacceptable to the REIT with regards to maximizing value and liquidity on the disposition of the Property. The REIT continues to advance on the value maximizing process as announced on September 8, 2015.

On July 12, 2016, the REIT announced that, further to its press release dated December 31, 2015 describing the execution of the lease amendment on the Property and the required capital investment in the Property by the REIT in the maximum amount of €140,000 (the "Capital Investment"), the REIT has secured committed debt financing from the existing mortgage lender on the Property to fully finance the Capital Investment, which has been structured and funded by the Lender as an addition to the REIT's existing mortgage debt on the Property in the amount of €140,000. The Capital Investment is comprised of specified building improvements that Management believes will enhance the quality and functionality of the Property.
